

MSK Direct

World-Class Cancer Care, No Matter Where You Live.

Cancer can affect anyone, but not everyone lives near a top cancer center. That's why your employer partnered with Memorial Sloan Kettering Cancer Center (MSK) to offer you MSK Direct. MSK Direct is your resource for prevention through diagnosis and ongoing treatment in cancer care, providing practical and emotional support, no matter where you live.*

**available in most states*

MSK Direct

How It Works

Contact MSK Direct if you or a family member has been diagnosed with cancer, has been told by a doctor there is a suspicion of cancer, or would like to discuss treatment options. An MSK Direct Care Advisor will help you find the best cancer care possible, either through on-site care at MSK, or remotely, where MSK doctors guide your treatment in partnership with your local doctor.

no need to enroll • MSK Direct is open to all employees and their loved ones (pending insurance verification)

- clinical care is billed through your insurance
- patients are responsible only for the standard copays, coinsurance, and deductibles for the medical services received from MSK
- MSK is an in-network provider for many employers' medical plans, remote services typically aren't covered by insurance. If not covered by your insurance plan, you will be responsible for an upfront fee for each remote written consult from an MSK physician.

To get started with MSK Direct, call your employer's dedicated phone line at 844-506-0589, or visit mskcc.org/myemployer.

Everyone deserves access to the best possible cancer care — whenever you need it, wherever you live.

For **on-site** care at MSK, MSK Direct will:

- schedule an initial appointment at your convenience, as quickly as within two days
- gather all necessary medical records
- meet you at the first appointment to provide support, logistical assistance, and introductions to your care team
- remain a resource throughout your course of care at MSK

For **remote** care close to home, MSK doctors and nurses will collaborate with your local doctors to:

- provide a comprehensive diagnosis from pathologists and radiologists specialized in your specific type of cancer, based on tissue samples, original imaging, and genetic testing (when clinically appropriate)
- recommend the best hospitals close to where you live, using a proprietary tool only available from MSK
- develop a treatment plan informed by a multidisciplinary team that may include subspecialized MSK medical, surgical, and radiation oncologists
- provide education and support to help identify clinical trials that could open up new treatment options
- provide expert care through phone or video consultations between you, your MSK doctors, and your local doctors at key decision points in your care

For your overall well-being and peace of mind, MSK Direct provides screening and prevention resources and informational webinars to help you reduce your risk for cancer.

MSK has locations in New York City, throughout New York State and New Jersey, and is available remotely anywhere in the US.
